Education

Master's in Data Analytics, University of XYZ, City, State

Graduated: May 2022

Skills

- Microsoft SQL – SSRS, SSAS, SSIS, SSMS
- ETL Tools – Tableau Prep, Alteryx, Azure, DAG/Air Flow systems
- DevOps – Deployment pipelines, automation, QA to Production replication
- BI Tools – Tableau, Power BI, ThoughtSpot
- AWS – EC2/EMR cluster, S3, RDS
- Database Systems – SQL Server, Teradata, Snowflake
- Project Management – JIRA, Azure DevOps
- Programming Languages – Python, JavaScript
- API Development, Agile SCRUM

Experience

Data Analyst, ABC Corp., City, State

January 2023 – Present

- Led cross-functional teams to develop data-driven solutions and provided project management support.
- Demonstrated expertise in data entry, management, and investigating complex databases.
- Developed metrics to monitor project plans and delivered critical reports.
- Built and maintained team documentation related to internal artifacts, vendors, and industry research.
- Managed multiple projects in a deadline-driven environment, taking initiative to explore and solve problems.

Junior Data Analyst, DEF Inc., City, State

June 2020 – December 2022

- Drafted and proofed research reports, delivered presentations, and facilitated collaborative workshops.
- Supported ETL processes using tools such as Alteryx and Tableau Prep to streamline workflows.
- Automated QA to production replication using DevOps deployment pipelines.
- Created visual dashboards in Tableau and Power BI to support business decision-making.

Projects

Retail Sales Dashboard

- Developed an interactive Tableau dashboard for analyzing sales data across regions, enhancing decision-making by 30%.

Customer Churn Prediction

- Built a predictive model using Python and Snowflake to identify high-risk customers, reducing churn rate by 15%.

ETL Workflow Automation

- Automated data extraction and transformation processes using Alteryx and Azure, saving 20 hours of manual work weekly.
